23/3

Letter No 82. C 15/44-45 dt 6-12-44 from the Chairman, C.D.T. Board, Mysore, requesting sanction to an estimate for Rs 8,000/- for employing a Special Estt for carrying out the necessary survey for drawing up a comprehensive programme for underground drainage in the city.

1) The ~~following~~ estt is proposed to be employed for the work is flagged "B" ~~Order Conference~~

The expenditure for 6 months from 1st January 1945 ~~to~~ ~~31st December 1945~~ amounting to Rs 4000/- is proposed to be met by reappropriation from the Sanctioned Grants in the current year's Budget of the Board.

2) The Chief Engineer for Roads & Buildings will also be consulted

3) Submitted for orders

Vide 4) Before a comprehensive 9/12 scheme for underground drainage work in the unsewered parts of the Mysore city could be prepared, it is necessary to survey the areas which will be covered by the scheme

WD 0726—GPB—25 000—10 9 44

5) Hence the Chairman, Mysore City

Improvement Trust Board has sanctioned for the formation of said purposes at a cost of Rs 8000/- for employing a special establishment for carrying out the works in question, for a period of ~~one~~ one year ~~months~~ commencing from 1st January 1944.

6) The expenditure of Rs 4000/- required for ~~five~~ four months during the current year is proposed to be met by the reappropriation of sanctioned grants of the Trust Board.

The details of the establishment have been furnished by the Chairman

7) Before sanctioning the establishment, it is necessary to consult the Chief Engineer for roads & Buildings if the personnel could be made available, as it has been represented in other connections that there is a dearth of hands in the P.W.D.

8) For order

Dated 4th December *1944*

From

K. RAMACHANDRA RAO BHOMBORE, Esq , B A ,
THE CHAIRMAN,
City Improvement Trust Board,
Mysore

To

Dewan Bahadur C. Narayanaswamy Naidu, Esq , B A ,B L
Legal Remembrancer & Secretary to the Government of
His Highness the Maharaja of Mysore, Law Department,
Bangalore

Sir,

In forwarding herewith the resolution of the Trust Board at their Meeting held on the 29th November 1944, sanctioning an estimate for a sum of Rs 8,000/- for employing a special establishment for carrying out the necessary survey for drawing up a comprehensive programme for underground drainage in Mysore City, I have the honour to state as follows:-

2 A copy of the note regarding the condition of the underground drainage system in Mysore City is herein enclosed for perusal

3 According to this note, it can be seen that even though it is over 25 years since the underground drainage system was introduced in Mysore, more than half the area is still remaining unsewered During the inspection of the Dewan, this matter was explained to him and he was pleased to order to make a regular representation to Government regarding funds required for the scheme The proposal is to get a sum of Rs two lakhs sanctioned every year for a period of three years to complete the underground drainage for the remaining area of the City, the total cost of which according to rough estimates comes to Rs six lakhs

4 To chalk out a comprehensive programme and for preparing detailed estimates for the underground drainage work for the unsewered areas of the City it is necessary to employ a special establishment for doing the extensive surveys The establishment required on account of this work comes to Rs 8,000/- as per estimate enclosed, for a period of one year After the surveys are completed and detailed estimates are prepared Government will be requested to give the necessary grant for taking up the underground drainage work

5 I request that sanction of Government may kindly be obtained for employing the special establishment from 1st January 1945 The expenditure of

CITY IMPROVEMENT TRUST BOARD, MYSORE

MYSORE

Dated ' 194

UNDERGROUND DRAINAGE WORK IN MYSORE CITY

In the year 1912 detailed surveys were made and a scheme was drawn up for providing underground drainage for the entire City Even though it is 31 years since this project was got ready, only about -- half the area of the City has been sewered so far There still remains half the area of the City in Mandi and Lashkar Mohallas to be sewered

The unsewered areas of Mandi and Lashkar Mohallas are very - congested and the business population lives in this area who contribut a very large sum towards the income of the Municipality It is therefore necessary that these areas are sewered immediately and made fit for habitation

Detailed estimates have not been worked out for these areas even though there are plans ready for most of these areas The total cost for sewering these areas amount to Rs 4,08,000/- roughly calculated on the basis of square area from the data available from sewered areas,

For Vontikoppal Extension, a detailed estimate has however been got done by the Sanitary Department which amounts to Rs 1,92,000/- - Vontikoppal is an area where the pick of the population live The -- houses have been built on modern lines and unless the area is completely sewered, it will never be in keeping with the civilised Mysore Town A portion of this scheme costing about Rs 22,000/- for this area Block No 4/A has since been sanctioned and the work is going to be taken up The remaining portions also have to be taken up very soon The owners of houses in this area have agreed to contribute at the rate of Rs 60/- for houses fetching rental of Rs 200/- and below and at Rs 100/- for houses fetching over Rs 200/- By this method we will be able to realise - about 1/3 the cost of the entire scheme, the remaining 2/3 being met

10

half by the Trust Board and half by the Municipality

The total cost of the underground drainage scheme for the unsewered areas of Kandi and Lashkar and that of Vontikoppal amount to Rs 6,00,000/- This amount cannot be made available - out of the poor resources of either the Municipality or the Trust Board Being War time, materials are not available for either - building construction or for doing any original big schemes where iron and wood are involved Underground drainage system however requires only cement and stone-ware pipes Stoneware pipes are manufactured in Bangalore and are available in plenty at reasonable prices even during this war time Cement is manufactured in Mysore State and even this can be spared if indents are sent sufficiently in advance

It is therefore requested to address the Government in the matter and request them to give an outright grant of Rs 2,00,000 towards 1/3rd the cost of the above drainage scheme and a loan of - Rs 4,00,000/- to be repaid in easy instalments by the Trust Board and Municipality in equal proportion The grant may be given -- during the course of three years at the rate of Rs two lakhs per - year and at the end of three years the entire Town will have been sewered

Bangalore

Sir

Special establishment for carrying out the necessary survey for drawing up a comprehensive programme for the under ground drainage in Mysore City

With reference to your letter No I 5911 dated the 15th December 1944 requesting to intimate, whether the establishment referred to in letter No D2 C 15/44-45 dated 6th December 1944 for the above mentioned work can be made available, etc , I have the honour to inform you that at present, the personnel asked for cannot bemade available, as there are nearly 70 to 80 - vacancies existing in the Department itself and it has become very difficult to post hands due to the great dearth of qualified hands

2 However it may become possible to post the personnel referred to early in May 1945, after the results of the Engineering Examinations are announced

I have the honour to be
Sir,
Your most obedient servant,

CHIEF ENGINEER FOR IRRIGATION
